AIR CONDITIONING SERVICES

Our team is dedicated to completing your installation with the minimum disruption to you and your business. Our Technicians are fully qualified and trained with 10 years of experience. We will always ensure that work is carried out with safety in mind for you and your staff. Upon completion, they will leave your premises as they were found, clean and tidy.

We will ensure that the customer is fully satisfied with the work and understands how to operate the system.

Our Technicians will advise you on the correct size and positioning to maximize running costs, performance and life of your unit.

- We supply Samsung, York, LG, Eco air, Jet air and Infinity brands
- We offer major and minor services
- We offer full service contracts, 3 monthly, 6 monthly and yearly
- All new installations
- Removal and reinstallation of existing units
- Repair and maintenance
- Sales
- We supply and install mid wall split units, Ducted / In ceiling units, Cassettes, Console units and under ceiling / floor units.
- We also supply 12000BTU portable units
- We supply and install only the new eco-friendly 410A gas units and the new 410A gas energy saving Inverter units, these inverter units use 40% less electricity than the normal non-inverter units.
